VICE PRESIDENT OF LOGAN SQUARE BANK UNDER INDICTMENT

Charged with Forgery, False Pretense, Confidence Game

(By The Associated Press)
CHICAGO, March 14.—The first indictment in connection with the grand jury investigation of the affairs of the Logan Square Trust & Savings Bank, closed last week after Fred W. Popp, its president, was found with a bullet thru his head was returned today against David Wiedemann Jr., vice-president of the bank who was charged with forgery.

Wiedemann was indicted on three counts, the chief of which accused him of having fraudulently obtained \$10,000 by forging a note upon the Harvey, Ill. State Bank of which his father is president. He is also charged with obtaining money under false pretenses and operating a confidence game. A capias warrant for Wiedemann's arrest was issued and bonds were fixed at \$15,000. Wiedemann a few days ago admitted that he might have been technically guilty of forgery but said that the transaction in question was a personal one and that the bank was not involved and that he signed other names to notes only until he could secure the signatures of those whose names he is charged with forging.

While the grand jury continued its investigation of the bank's affairs, State Bank examiners were still busy going over the institution's books, plans were being discussed for a reorganization of the bank by depositors and the authorities were still investigating Popp's affairs and the circumstances surrounding his death.

Subpoenas were issued today calling Miss June Bacon, Miss Clara Holman and Ross Miller before the grand jury. Miss Bacon and Miss Holman were alleged to have been intimate friends of Popp, although they had claimed in statements that they had merely consulted him as a financial adviser. Miller, said to have been a friend of Miss Bacon, was brought into the case yesterday by a former maid of Miss Bacon, who asserted that Miss Bacon and Miller had succeeded in getting large sums of money from Popp. Frank Wozny, who the police claim is also known as Ross Miller, was taken into custody today and while awaiting his trial, Miss Bacon said he did not know Popp but that his name was not Miller and denied all knowledge of the case. He was released later.

Mrs. Popp, widow of the bank president, filed a court petition today showing that the banker left only \$21,000 outside of insurance amounting to \$163,000. It had been estimated he had an estate valued at \$250,000.

STANDARD EMPLOYEES DENOUNCED REPORT

(By The Associated Press)
CHICAGO, March 14.—The report of the La Follette subcommittee on the industry was denounced by resolutions adopted today by employees of the Whiting, Indiana plant of the Standard Oil company of Indiana thru their industrial relations committee.

The resolutions express "our complete confidence in the directors of our company and their ability and intention to continue to conduct the affairs of this company in a manner fair and just to the public, to the stockholder, to the employees and to the competitor."

Disapproval was expressed of the senate committee and of its "methods of selecting and arranging testimony to best suit its purposes."

THUNDER HANGS IN THE AIR BETWEEN LIPPE AND THE RUHR

If It Breaks, Woe to French and All Europe, Says Writer

(By The Associated Press)
BERLIN, March 14.—"Thunder hangs in the air between the Lippe and Ruhr," writes the Elberfeld correspondent of the Allgemeine Zeitung, "and if it ever breaks woe to the French and woe to all Europe."

The correspondent says the Westphalian is a man of few words but when he does begin to speak action is not far off and adds that until recently the Westphalians have kept their feelings to themselves realizing that the whole country is swarming with spies. The inhabitants of the Ruhr, the correspondent declares have even gone as far as threats which is evidenced by an incident which he relates as follows: The labor unions at Bochum protested against the sharpening of the state of siege. The French general invited them to the city hall to explain their reasons to him and to hear vindication of his measures; thereupon they interrupted abruptly declaring they did not care anything about that—all that made no difference to them, they told him and added: "We have borne it long enough why it will not go much longer. And one thing is certain: For you, general, it is turning out badly. Do not forget that we have dynamite in our mines. Remember that and if it ever goes off—good bye."

ALLIED COUNCIL SETTLES ONE OF SERIOUS PROBLEMS

Fixes Frontiers Between Russia and Poland

(By The Associated Press)
PARIS, March 14.—The allied council of ambassadors today finally settled one of the most irritating problems left over from the peace conference by fixing the frontiers between Russia and Poland.

The council's action was on the surface a mere perfunctory sanctioning of the terms of the 1919 treaty between Russia and Poland and acceptance of the existing situation but it was really the ending of an uncertain situation which it was feared might develop serious trouble.

In fact the allies had never formally accepted the territorial divisions made under the Riga treaty and questions had been raised as to the fate of eastern Galicia.

This matter had come up on several occasions before the assembly of the league of nations, twice on a resolution introduced by the Canadian delegation to the effect that the council of the league do its utmost to urge final settlement of a status of the province.

The Polish government showed considerable uneasiness at the manifestations of sentiment that the boundary of Eastern Galicia had not yet been definitely fixed.

DEMURRER OVERRULED BY JUDGE FRIEND
Chicago, March 14.—Judge Hugo M. Friend today overruled the demurrer filed by the defendants in the Chicago Tribune suit to recover more than \$1,700,000 alleged to have been illegally paid to real estate experts engaged by the board of local improvements. Judge Friend advised the defendants that they must either answer the Tribune's charges or be held in the event of an answer from them, enter a judgment from which they may appeal.

F. AND P. U. COMPLETES HEARING WEDNESDAY

Chicago, March 14.—After more than four weeks during which thousands of words of testimony were amassed, the hearing of a complaint by the Peoria and Rock Island Railroad was completed today before the Interstate Commerce Commission. Examiner P. F. Gault, presided at the hearing. The evidence was sent to Washington for decision.

FOREST FIRES THREATEN OBSERVATORY

Pasadena, Calif., March 14.—A shift in the wind apparently saved Echo Mountain Observatory, in a shoulder of Mount Lowe from a forest fire raging along the Sierra Madre Mountains this afternoon. Fire fighters said they believed the observatory was out of danger. The shift, however, sent the flames from the canyon thru which the Pasadena water supply is conserved and toward Mount Wilson Observatory, 3 miles away on another peak.

Lacrosse, Wis., March 14.—Mrs. R. O. Connelley was shot and killed and her husband badly wounded by Miss Clara Lipke the slain woman's sister in their home today. Miss Lipke had been confined recently in a sanitarium and was said to be deranged when she did the shooting. It is not known where she obtained the revolver.

AMERICAN LEGION DIRECTOR PREDICTS GERMAN REVOLT

Says Plan is Afoot to Restore Prussian Monarchy

(By The Associated Press)
INDIANAPOLIS, Ind., March 14.—A revolution for the restoration of the Prussian monarchy including the reinstatement of the Hohenzollerns is impending in Germany under Von Hindenburg's leadership, in the opinion of Garland W. Powell, national director of the American Legion, who today issued a warning to all American officers of the legion to be on guard against German propaganda.

"The picture of Von Hindenburg is reappearing in the American papers as it did in 1914," Mr. Powell stated. He has been selected by the German monarchist party to rattle the sabre in the Kaiser style and bring about a coup d'etat to restore the old regime. He has opened this campaign by calling for war with France in his address to the German veterans' league in Hanover yesterday. Hindenburg is still the hero of Germany and his reappearance is a menace to the peace of the world.

The American people do not realize said Mr. Powell, that Germany can afford to spend millions for propaganda in America while refusing to pay reparations to France and the allies on the plea of poverty.

"Germany today is in a better position for war than the world realizes," Mr. Powell declared, "but this German propaganda is being exerted to bring the American people to believe otherwise. The Americanism commission of the legion has information of the course of German propaganda efforts in this country for the last year. There are 30,000 Americans buried in France who fell in breaking the Hindenburg line in 1918. The American people will not forget this in reading Hindenburg's new threat of war."

BRUNDAGE SAYS HE IS NOT INVESTIGATING

(By The Associated Press)
CHICAGO, March 14.—Edward J. Brundage, attorney general of Illinois declared tonight that he was taking no part in a reported investigation of alleged attempts to bribe members of the jury panel called last summer to try Governor Len Small on charges of misappropriating interest on state funds.

"The inquiry at Waukegan is being conducted by the state's attorney of Lake county, not by the attorney general," he declared in a statement to The Associated Press. "I have just finished reading Governor Small's tirade against me. He evidently overlooks the fact that the state's attorney is conducting the investigation. If there is any suspicion of the jury which tried the governor, I should think that he would welcome any such inquiry."

Cramer Suicide Was Caused By Criticism

(By The Associated Press)
WASHINGTON, March 14.—The suicide today of Charles F. Cramer who resigned as general counsel of the Veterans' Bureau at the height of congressional attacks on that organization was attributed tonight by his associates to worry over criticism aimed at him, accentuated by financial reverses.

William Wolf Smith who succeeded Mr. Cramer said his inquiry into the affairs of the legal division of the bureau had thus far disclosed "nothing to Mr. Cramer's discredit."

Investigation by the police revealed no motive for the suicide, but they said they had learned that Mr. Cramer had been greatly depressed since severing his connection with the veterans' organization which occurred just prior to the resignation of Director Forbes a few weeks ago.

Mr. Cramer was alone at the time of the tragedy except for a maid and a chauffeur. Last night he escorted his wife to the midnight train for New York where she went to visit his father who is 82 years old and who is said to be critically ill. Returning to his home he told the maid to awaken him at 8 o'clock this morning but when she went to call him she found his bed had been occupied. The door to a bathroom was found locked. It was broken down and his body still warm was found stretched on the floor. A bullet had passed thru his head.

Police believe that he paced the floor all night and shot himself at daybreak. The house in which the act was committed was purchased by Mr. Cramer from President and Mrs. Harding, it having been occupied by them while the president was senator.

It was recalled at the bureau that after a meeting of the American Legion at Indianapolis last fall at which he was bitterly assailed, Mr. Cramer issued a statement saying he had given wholehearted and patriotic service to the bureau, had laid all the facts before his chief and was willing to abide by the latter's decision as to whether he should remain.

Almost immediately his resignation was accepted and within a few days, Director Forbes was on his way to Europe, leaving his own resignation in the hands of President Harding. Since then the senate has appointed a committee to investigate the affairs of the Veterans' Bureau and John F. O'Ryan, of New York, who commanded the 27th division in France has been selected as special counsel.

Mr. Cramer was 45 years old. He left no children. When the United States entered the war he came to Washington from his home in San Francisco and tried to obtain a commission in the army but because of a crippled arm and bad eye he was rejected.

LUNCHEON GIVEN WALDORF-ASTORIA EMPLOYEES YESTERDAY

Those in Service Ten Years or More Are the Guests

(By The Associated Press)
NEW YORK, March 14.—The Waldorf-Astoria hotel which has housed many notables during its existence today celebrated its 30th anniversary with a luncheon to employees in service ten years or more. Headed by Oscar, the maître d' hotel, 169 men and women sat down to flower strewn tables and were served by their juniors, dressed in conventional waiters' attire.

Oscar asked if he had noticed many changes in the time between March 1893 and today. Thought for a moment and then checked off four points of difference.

His points were, length of dinners, prohibition, decline in the use of waiters and whiskies.

He said that Switzerland was the best place in the world to find a waiter, America was the worst. In the thirty years of its history the Waldorf has numbered among its patrons, Presidents Cleveland, McKinley, Roosevelt, Taft, and Wilson.

Li Hung Chang, the Chinese statesman, King Albert and Queen Elizabeth of Belgium, the crown prince of Siam, the Prince of Wales and Prince Henry of Prussia, are among the other names which were registered at the Waldorf-Astoria.

FURTHER CHARGES AGAINST KRENGLE

(By The Associated Press)
CHICAGO, March 14.—Charges of conspiracy and malfeasance in office made by Trustee Hart Hans were filed today by Dr. John Dill Robertson, president of the school board against Fred W. Krengle, already indicted assistant manager of the board. The new charges involve the alleged acceptance by Krengle as purchasing agent of the board of 76,000 electric lamp globes said to be below the grade contracted for by the board at a price of 40,000 last year from the international electric lamp company, a Pennsylvania concern.

WOULD PROHIBIT DUMB ANIMALS IN PUBLIC EXHIBITS

Bill Introduced in Legislature by Senator Denver

(By The Associated Press)

SPRINGFIELD, Ill., March 14.—In one of 15 bills presented to the senate today, Senator John Devis, Chicago, seeks to prohibit the use of dumb animals to perform any trick as part of performance at a regularly established place of public entertainment. Senator Denver in another bill would prohibit selling of tickets anywhere but at box offices. This measure was referred to the judiciary committee and a similar one brought into the house by Representative Mitchell, Chicago, was sent to the house committee on license and miscellany. A bill by Senator Teiford, Salem, sent to the fish and game committee, would make the open season for prairie chickens, November 10 to 21.

Senator Barr, Joliet, in a bill asks appropriation of \$1,200,000 for the department of agriculture to pay indemnity to persons whose cattle were destroyed after tuberculosis tests. The measure was referred to the appropriations committee.

The senate passed the Wood bill creating the Spanish-American Memorial commission; directed to provide suitable exercises throughout the state on April 26.

Representative Green, Rockford, introduced a joint resolution creating a joint committee of 15 persons to make a just plan for new apportionment of the state into congressional districts. He pointed out that the last congressional reapportionment was made in 1901. The resolution was laid on the speaker's table.

Other Measures.

Among measures which passed second house reading today were the following appropriation measures:

Smejkal — Appropriation of \$20,000,000 for hard surface roads.

Smejkal — Appropriation of \$20,000 to the lieutenant-governor's office.

Smejkal — Appropriation of \$54,500 to the governor's office. The only reference made to the Mueller appropriation bill for the attorney general's office was when a minor change in wording was agreed to.

A joint hearing of the judiciary committee was held this afternoon on three anti-gun totting bills.

By Representatives Igoe, O'Grady and Myers, the bills were made by Chief of Detectives Hughes of Chicago, the bills' authors and others, and attacks on them were made by several persons, including former Senator Sadler, Chicago, and A. R. Epstein, of the United States Rifle association.

Representative Sidney Lyon, Chicago, announced today that his committee on license and miscellany would hold a hearing next Wednesday on the Gailis and Epstein bills permitting contests under state supervision.

Another Smejkal appropriation bill, that, allowing \$19,000,000 for the Illinois Waterway from Lockport to Ulen was favorably reported to the house.

TELLS OF IRREGULAR PRACTICES BY GARY, INDIANA OFFICIALS

Former Deputy Constable Testifies in Federal Court

(By The Associated Press)

INDIANAPOLIS, Ind., March 14.—Details of alleged irregular practices by certain Gary, Ind., officials in connection with liquor cases were told on the witness stand today by Dan Melloy, former deputy constable of Gary and a government witness in the Lake county liquor conspiracy case which opened in federal court here today.

The taking of testimony in the case in which the 63 defendants are charged with conspiracy to obstruct enforcement of the Volstead act the list including many prominent county and city officials got under way after Judge Ferdinand Geiger overruled a motion for dismissal of three of the defendants on the ground of lack of evidence. The jury was selected early in the day.

A cordon of federal agents was thrown about the court room while numerous uniformed policemen and officials were stationed among the spectators to guard the government witnesses. The unusual precautions were taken following the slaying of one of the prosecution's main witnesses at Gary Tuesday.

Homer Elliott, United States district attorney, in his opening statement declared the government would prove that the defendants conspired to "split the proceeds of the liquor obtained in raids and also money obtained from bootleggers" for police protection.

PRIMARIES ARE CONTROLLED BY MINERS' UNION

Nominate Tickets in Williamson County Tuesday

(By The Associated Press)

MARION, Ill., March 14.—The miners' union virtually controlled the primary elections held Tuesday in Williamson county and nominated their tickets in all of the towns where there was a contest.

In Marion they put up a complete labor ticket although it had to run without title under the commission form of government. All of the miners were assessed to help nominate the ticket and it was accomplished with big majorities. The complete ticket selected by the Laborers' union league was also nominated and these two tickets will be voted upon on April 17.

In Herrin A. T. Pace heads the Union Labor ticket. He is the present mayor and is seeking reelection. He is a miner's official and has been actively connected with the defense of the union miners in the Herrin riots trial.

In Johnston county Fred Connor is a candidate for mayor. He is a state miner's official and one of the men under indictment in the Herrin riots.

BREACH OF PROMISE SUIT FOR \$50,000

(By The Associated Press)

CHICAGO, March 14.—After thirteen years of married life with George D. Uebel, Jr., a merchant, Miss Clara Louise Bohrer today filed suit for \$50,000 damages for breach of promise against Uebel whom, until recently she had considered her husband. Miss Bohrer was married to Uebel in November, 1910, less than three weeks after her divorce according to the petition. The marriage was declared to be illegal under the Illinois law because it occurred within a year after the divorce.

When the couple first discovered they were not legally married, they agreed to remarry, according to the declaration in Miss Bohrer's suit. The date for the wedding was set for November 11, 1921. Uebel, it was charged, refused to marry her and filed a bill for annulment.

But even more surprising are the figures to show that on a per capita basis Jacksonville does more manufacturing than Springfield and several other of the larger cities of Illinois commonly referred to as industrial centers.
Miners are to have the annual holiday April 2 this year instead of April 1, as that is a Sunday day. The wonder is that the miners insist on this holiday when through the year they complain that the mines are shut down so many days.

Often there are complaints about the excessive amount that the state taken by way of inheritance tax, but over England the laws are so stringent that the government received the tidy sum of \$6,000,000 from the estate of \$15,000,000 left by Lord Northcliffe.
There is a well defined rumor that Will Hays may be recalled from his managerial duties in the movie world long enough to take charge of the next Republican national campaign. Mr. Hays did such splendid work in the last campaign that Republican leaders think that no effort should be spared to have his expert service once more.
It is recognized that the managerial task will not be as easy as it was in 1920.

If a dispatch from Colon is correct and members of the congressional party, Secretary Denby heads spent the first hours at the port securing liquor supplies, it is no wonder that violations of the prohibition law continue.
More and more there is the belief that the burden of law observance rests first of all upon those who hold government positions and have intimate connection with the law making bodies of the government. When they are sincere in law observance and enforcement it will not be so very difficult to bring general observance to pass.

25,000 YEARS AGO.
(N. E. A.)
The Stone Age people who lived in Great Britain 25,000 years ago were physically and mentally superior to the average European of 1923.
So claims the eminent authority on anthropology, Prof. Elliot Smith of England.
Smith's book, "Ancient Man in Britain," this book, which is creating a sensation in England, gives this description of the Britons of 25,000 years ago:
"In all essential features they were of modern type. They would, dressed in modern attire, pass thru the streets of a modern city without particular notice being taken of them. One branch was particularly tall and handsome, with an average height for the males of 6 feet 1 1/2 inches."

The people who inhabited Britain 25,000 years ago suffered from many of the physical complaints that are common today.
"There is evidence in skeleton of the effects of rheumatism and of bad teeth," says Prof. Smith.
Those ancients were clever surgeons. They were skilled at performing the delicate operation, trepanning the skull to relieve the brain from pressure or irritation. Skulls which have been dug up, reveal this clearly and unmistakably.
Similar operations, by the way, were performed by the Aztecs who had a highly developed civilization, on the American continent, until the plundering Spanish explorers destroyed it.

The late Prof. Camden M. Coburn, who uncovered the cities which the Israelites built of sun-dried brick before they fled Egypt, had the greatest surprise of his life in India.
There Coburn saw an ancient document in which a scientist of

AUTO DEALERS KEPT BUSY AT BIG SHOW

Each Exhibitor Entertains Hundreds of Interested Visitors Nightly—Fine List of Cars for Purchasers' Choice.
The crowd was even greater at the automobile show and merchants' exposition Wednesday night than was true Monday and Tuesday. The free motion picture show given from 6:30 to 8 o'clock attracted many people and the dancing floor was very popular during the later hours.

The interest in automobiles cannot always be judged by the size of the crowd, but the dealers at the show are of one mind in saying that the "prospects" they meet each night are numerous. Without doubt an auto show at this season of the year gives impetus to early buying, as it gives the purchaser the advantage of comparing cars and prices easily and without embarrassment.
This year as heretofore the west half of Auto Inn and the north side as well are devoted to display spaces for cars. The number of makes shown is greater than in former years, and there are more of the high priced cars on view than has previously been true.

Among the exhibitors are: Oldsmobile, Faunce Motor Co., Chicago. Studebaker, E. W. Brown, Jr. Cadillac, Cadillac Company. Packard, L. E. Depe Co. Kissell and Oakland, W. J. Miller, Springfield. Nash, Case and International Trucks, Houston—McNamara Co. Willys-Knight and Overland, Reiser Motor Co. Dort, Charles M. Strawn. Peerless, Wiesenmeyer Company, Springfield. Chevrolet, J. F. Claus Co. Dodge, S. W. Babb. Lincoln and Ford, Lukeman Motor Co. Hupp Car and Twin City Tractor, German Bros. Wallace Tractor, Hill Bros. Stewart Truck, O. H. Cook. Federal Truck, Zak & Scharafin, Springfield.
The decorations at the Inn are elaborate and add greatly to the attractiveness of the exhibit spaces.

Five Candidates Are Given Final Work at Meeting Wednesday Evening—Members Hold Over-Supper After the Program.
At the regular meeting Wednesday evening in the Ill. Lodge Temple, Jacksonville, 150 members of the Knights of Pythias, conferred the rank of Knight on five candidates. The work was put on in fine style by a degree team of which J. I. Graham is captain.
Candidates who took the work and became full fledged Pythians were: John Haggitt, J. W. Harding, Claude Haggitt, Stewart Sparger and Charles Haggitt. The lodge has a number of additional applications and will confer the rank of Knight on several candidates at an early date.
Following the conferring of the work, the members adjourned to the lodge banquet room, where they enjoyed an oyster stew, prepared and served by a committee consisting of John Sibert, John Sheppard and Ernest Blumquist.

Flowering with Berton Braler
ALABAMA RAIN.
(Montgomery, Ala.)
Don't drive through Alabama, when it rains.
For the valleys, and the hillocks, and the plains.
Are a mire of sticky clay
Where you'll stay and stay and stay.
Getting deeper every moment for your pains.
Don't drive through Alabama in the rain.
Wait for sunny days, or travel on the train.
Though I do not care to slam a Friendly state, still Alabama Has the sort of roads no verses can explain.
Don't drive through Alabama in the rain!
For they tell me the asylum for insane Has some people strolling thru it.
Who imagined they could do it.
But are now entirely batty in the brain.
Don't drive through Alabama when it rains!
For the things they build for roads are only drains.
And the sturdiest of flivvers Wasn't made for swimming rivers Or exploring wholly bottomless terrains.
Don't drive through Alabama when it rains!
Though you put on double sets of heavy chains.
You will sink into a bog Where a fat bull-throated frog Croaks funereally over your remains.
Wait until the downpour finishes and wanes.
And the sky from further deluges refrains.
Otherwise you'll linger here For the rest of your career.
Don't drive through Alabama when it rains!

INTERESTING FACTS ABOUT GARDEN FLOWERS

A reader of the Bloomington Bulletin recently sent to Charles C. Capps of this city, paragraphs telling of a recent gathering there when some very interesting facts were presented about old time flowers and gardens.
"Mrs. Dean Funk, whose lovely peony garden near McLean, is so famous, gave a delightful talk on the subject of Peonies. She said there is now a National Association for their care and development. This society is trying to weed out the unfit varieties and develop high class flowers. Mrs. Funk showed how the peony is an old flower that will live almost forever. A friend has one that was planted in 1835, and last year bore almost a hundred beautiful flowers. She herself has a plant sixteen years old, which was full of blooms last year, with practically no attention.
"She described her visit to Mr. Brand, the peony expert of Wisconsin, and how he has practically given his life to the development of this flower. Money is not the consideration with him, but just as any artist works, so he is developing the beauty of this wonderful flower. Among his helpers he has only one who really reaches this ideal plane of viewing the flower. It takes years and years of patient work to develop a fine peony.
"Mrs. Emma Bell Foster gave a beautiful tribute to her father's garden, now seventy-five years old. She said Americans expect the results of English gardens in a few years, while this is a work of long years. Mrs. Spencer Ewing and Mrs. Avery Noble both gave most practical talks on the growing of annuals, naming many helpful varieties. A delightful plan has been proposed of tours of these lovely gardens of Bloomington to be made by members of the association, at different seasons of growth."

HOG BREEDERS FORM TON LITTER PIG CLUB

What is to be known as a Ton Litter club was began Wednesday evening at a meeting of the Morgan County Breeders' association held at the Farm Bureau headquarters. Rules and regulations to govern a prize contest to determine the heaviest litter of pigs at the end of a given time, were formulated.
A total of \$275 will be given in prizes. The pigs are to be weighed six months from the date of entry, which should be as soon as they are born. It is hoped to produce a litter weighing a ton or more.
The contest will be duly advertised, and boys and girls, hog breeders and farmers are encouraged to enter litters of pigs. The association is at work on the rules of the contest, which will be announced later.

TRAINMEN MAY OPERATE BANK AT BLOOMINGTON

Financial representatives of the Brotherhood of Locomotive Engineers of division No. 19 are proposing to operate a bank in Bloomington. When established, the bank will be a branch of the main bank of the Brotherhood of Engineers, which has been located at Cleveland.
It is understood to be the purpose to organize branches of the parent bank in a number of cities and to operate them in a co-operative way. In Bloomington the plan cannot be carried out unless one of the banks already established there is absorbed. It is understood that unless this is done the state department in charge of banking will not issue a permit.

Women Tell Each Other How They Have Been Helped by Lydia E. Pinkham's Vegetable Compound
Perryburg, O.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my sides all the time. I can't remember just how long I suffered, but it was for some time. One day I was talking with a lady I met on a car, and I told her how I was suffering and she said she had been just like I was with pains and nervous troubles, and she took the Vegetable Compound, and it cured her. So then I went and got some, and I certainly recommend it for it is good. Whenever I see any woman who is sick I try to get her to take Lydia E. Pinkham's Vegetable Compound."—Mrs. ADA FRICK, Route 3, Perryburg, Ohio.

LIFE SAVING EXAMINERS MET RED CROSS OFFICIAL

Commodore W. E. Longfellow, of Washington, D. C. associate National Director of Life Saving for the American Red Cross arrived in Jacksonville yesterday for a consultation with the three national life saving examiners who are located here. Recently Miss Margaret Hamilton, swimming instructor at Illinois Woman's College, Miss Gertrude Koester, gymnasium instructor for girls at the School for the Deaf, and Miss Lucille Stevens of the county health staff successfully passed the examination qualifying them to serve as examiners for life savers.

Commodore Longfellow called at Jacksonville on his way to St. Louis and stopped at the Red Cross headquarters. While here, besides discussing local problems in his line of work, he offered several suggestions regarding the opening of the new swimming pool at Nichols Park this summer. The principal work of Commodore Longfellow and his assistants consists of stimulating interest in life saving courses in different parts of the country, and teaching these courses by demonstrations and lectures.
Little is known of this branch of Red Cross work, as the work is comparatively new. At the present time the Red Cross has established offices and life saving

BRENNAN HAS BRAIN CONCUSSION

By The Associated Press.

NEW YORK, March 14.—Bill Brennan, Chicago heavyweight, "who was taken to the Jewish Memorial hospital early today with concussion of the brain, the result of his knockout by Luis Angel Firpo Monday night at Madison Square Garden, was declared by his physician today to be in no immediate danger."

"His condition apparently is not serious," asserted Dr. Edward L. Spitzer, brain specialist who diagnosed the case, "but it is too early to predict developments." X-ray photographs were taken of the pugilist's head soon after he reached the hospital but these Dr. Spitzer said, probably would not be examined until tomorrow. At present, he added, there is evidence of injury to the bone. "Brennan shows every sign of having taken an awful beating," the specialist declared, "but his general condition gives no cause now for alarm."

Except for a brief period of semi-consciousness early this morning when he was taken to the hospital Brennan was in cheerful mood and tonight chatted for awhile with his wife and Leo P. Flynn, his manager. His 19 months old daughter also was at his bedside earlier in the day. The blow which knocked out Brennan and resulted in his injury was a right hand swing, landing just behind the left ear with the force of a sledge hammer.

In a talk to newspapermen at Madison Square Garden yesterday afternoon, Brennan emphatically denied charges that he "had thrown" the fight to Firpo and laid his defeat entirely to the South American's superior punching prowess.

Firpo with his secretary and interpreter was among the callers at the hospital tonight. Upon ascertaining Brennan's condition he left. Firpo's friends said he "feels very badly about the condition of Senor Brennan."

Skin Ablaze with Eczema
Constant Itching Almost Unbearable!

We know there is one thing that stops eczema, and that is more red-blooded cells! S. S. S. builds them by the million! You can increase your red-blooded cells to the point where it is practically impossible for eczema to

exist. We know that as blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have your eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it! Skin eruptions, eczema with all its fiery, skin-digging torture and its soul-tearing, unbearable itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting-giants of nature! S. S. S. builds them by the million! It has been doing it since 1891! S. S. S. is one of the greatest blood-cell builders, blood-cleansers and body-builders known to us mortals! When you put these facts together, then to continue to have eczema and skin eruptions looks more like a sin than a disease. Mrs. Arthur N. Smith, Pearl St., Newark, Ohio, writes: "My little girl had a very bad case of eczema. She began taking S. S. S. and is well now. I thank you very much. I tell my friends what a good medicine it is. I cannot talk too much about it, for I know it is O. K."

Here is your opportunity. S. S. S. contains only vegetable medicinal ingredients. It builds S. S. S. blood-red-blood-cells, it routs rheumatism, builds firm flesh, fills out hollow cheeks, beautifies the complexion, builds you up when you are run-down. S. S. S. is sold at all drug stores, in two sizes. The larger size bottle is the more economical.

Social Events

Have Supper For

Miss George Kahan
Prior to the regular session of the Pocatonton Council No. 71, Tuesday evening, members of the degree staff gave a supper at the hall in honor of Mrs. George D. Kahan, who has long been one of the faithful workers on the staff. Mrs. Kahan who is soon to leave for California to reside was presented with an overnight bag by the staff, the presentation being made by Mrs. Alfred Larson. Following the business session a social hour was enjoyed and the degree staff had a rehearsal in preparation for the school of instruction to be given some time in April.

Wednesday Class Met

The Wednesday class held its

regular meeting yesterday afternoon at the home of Mrs. C. A. Parnes on West State street. Mrs. F. S. Hayden reviewed the book, "A Biography of William de Morgan and His Wife." A social hour and refreshments followed the program.

Sinclair Country Club Meets

The Sinclair Country club met Wednesday afternoon at the home of Mrs. Albert Hopper on the north side of the city. An interesting program had been arranged for the afternoon, but as several of those who were to take part were unable to be present there was some change in the program. The afternoon was spent in a pleasant and informal way and refreshments were served by the hostesses.

MANY GOING TO GOOD ROADS HEARING

Advocates of Jacksonville to Mt. Sterling Route Will Press The Case In Springfield Today.

Altho the roads are not in first class condition, indications are for a big delegation at the good roads hearing today in Springfield. When it is proposed to boost for the Jacksonville to Mt. Sterling hard road. Members of the Morgan county board and Supt. Baldwin, together with representatives of the chamber of commerce and other business men will make up the Jacksonville delegation.

Some of them will make the trip by automobile and others will leave for Springfield at 8:15 A. M. this morning, as the hearing is scheduled for 10 o'clock.

L. F. Berger came from Merced last night to visit the auto show and will join a party of Merced men on the Wabash train this morning. Thomas Croxton president of the Mt. Sterling chamber of commerce, L. B. Turner of Mt. Sterling also came to Jacksonville last night and will join the Mt. Sterling delegation on the train this morning. Charles Thomason and others from Chapin will make the Springfield trip and John Bell and a group of men from Versailles will be in the party.

SEARCHERS FOR PRIEST RETURN HOME

ST. LOUIS, March 14.—Several score of parishioners of Sacred Heart Catholic church of Virden, Ill., who came to Venice, Ill., across the Mississippi River from St. Louis to search for their pastor, the Rev. Father John A. Vranjak, who disappeared mysteriously 9 days ago, failed to find any trace of the priest today and tonight returned to their homes.

The searching party went to Venice on the strength of a statement by a garage proprietor that a man resembling the rector had stopped at his garage to have an automobile repaired late on the afternoon of March 5.

The statement later was declared by the police to be without substantiation.

Scouring the countryside between Virden and Venice, a distance of 55 miles, the party composed of about sixty men was unable to find any clues that might shed light on the whereabouts of Father Vranjak who disappeared while on a business trip here. The searchers hunted thruout the river edges and bottoms in the vicinity of Venice and some members of the party crossed over to this city but the search was fruitless. Mrs. Carrie Adesker of St. Louis county advised the authorities of Virden that they would not find the priestman alive tonight, saying she received the message from a ouija board.

TORRE OFF THEIR UNIFORMS

Pawnee Scouts Preferred the Naked Hide to Soldier Garb That Had Been Provided.

In the sixties Major (then first Lieutenant) Frank J. North of the Pawnee reservation was authorized to raise a company of the Pawnee for scouting services on the plains against the Sioux and Cheyennes. Eventually a battalion was formed, each company under a chief and all under the white commander.

An earnest effort was made to drill and discipline the scouts; and they really performed simple evolutions very well. As fighters of their hereditary foes they were wild-herds. Further to impress upon them their role of soldiers, they were issued uniforms—obsolete Civil war black hats, blouses and the old sky-blue trousers.

Upon the first march thereafter a fight for gold and men was presented. The scouts felt that they had been transferred to the "poor" heads through holes. The blouses were worn like short tunics, with the arms tied about the braves' necks, or else had been discarded in favor of naked hide. And the entire seats of the pants had been cut out, so that the two sections were retained merely by the belt at the waist.

In the first charge away went the blouses, and the trousers, the seatless pants drifted behind and the plain was strewn with garments while the yellow Pawnee rode stripped-clout and moccasins.

There were no flies on them, either.—Adventure Magazine.

MILLIONS OF YEARS OLD

Interesting Speculation as to What Really Are the Most Ancient Things on Earth.

Writing of the oldest thing in the world, an English antiquarian says: "I would say that from a geological point of view the igneous or fire-fused rocks composing the mountain ranges of Norway and Scotland easily hold the first place, as being among the oldest matter on the surface of the globe, dating considerably before the rock-masses which went to build up the lofty mountain chains of the Alps, Andes and Himalayas. Specimens of such rocks may be seen in the excellent museum of mineralogy in Jernyn street. From a biological standpoint the remains of primitive seaweeds and shellfish, preserved as fossils in the early stratified rocks, represent the most ancient forms of life on earth. These are to be seen in the British museum. Lastly, the most venerable remains of human agency are represented by the stone implements of prehistoric man, first discovered and recognized as such by the famous French savant, Boucher de Perthes, in the river-drifts and gravels of the Somme. Specimens of these rude weapons and tools are on view in almost every museum."

Garibaldi's Love of Animals.

George Macaulay Trevelyan, author of an old book about the Italian patriot, tells this story about his love of animals:

"The tenderest of the brave, he took thought not only for men and women, but for the joys and sufferings of animals. Ever since the day when, as a child, he had cried over the wounded grasshopper, he was brother to every living thing. He could not endure that a bird should be caged, nor allow an animal to be struck. In his presence, it pained him even to see flowers plucked, or a bough wantonly broken.

"During his dictatorship in Naples, in 1860, he spent, in trying to remedy the condition of the eunuchs, much time which others thought he should have given to tasks of government in time of crisis; and in the following year, when he was the most famous man in Europe, he thought it natural to go out at night in the rain to seek a strayed lamb among the rocks and brushwood of Caprea."

Spiders, Mostly Deaf and Dumb.

Whether insects can hear is a disputed question. Early writers say this sense would seem to be highly developed in spiders and certain other insects because some species not only make musical sounds but also are great lovers of music. However, no truth can be accredited to those old romantic stories in which the hero, confined in a dungeon, charmed spiders with sweet music and prognosticated weather by observing their behavior.

Recent experiments show that spiders are not only deaf, but most of them are dumb, only a few being able to make sounds. Much has been written about the sense of hearing in insects, but critics still contend that it has never been demonstrated beyond a doubt that any insect can really hear.

Live Longer in the South.

The climate of the sunny South, a newspaper article says, is more favorable to longevity than are the rigors of the North. In 1920, according to government records, nine people in Memphis, Tenn., had attained the age of 100 years or more, while Boston had only one centenarian. Other cities of North and South had similarly contrasting records. "In Mexico," the article continues, "there are more than one thousand living centenarians, and that amazingly large ratio of one in every seventeen thousand, perhaps not exceeded by any other country on the globe, probably is due to the mild highland climate and the easy-going habits of the great generality of the people, with their custom of an after-lunch nap or siesta."

Sea Life Under Great Pressure.

ASK INVESTIGATION OF HERRIN MINE RIOTS

SPRINGFIELD, March 14.—Complete investigation of the rioting last June at the W. J. Lester strip mine near Herrin was ordered by the house of representatives today and the speaker was requested to appoint a committee of seven members to do the investigating.

Charges were made from the Democratic side by Representative Igoe, Chicago and DeWine, Dixon, majority leader, that Adjutant General Black was responsible for failure to send troops to Herrin.

They produced evidence that Colonel Samuel N. Hunter, had advised Black of the immediate need for troops.

Representative Igoe initiated the discussion when he asked permission to suspend the rules to introduce a resolution. The resolution which created a committee of five to investigate the rioting charged that county and local authorities at Herrin had been derelict in not asking for state troops.

Mr. Igoe declared the adjutant general was inefficient and should be removed from office and he pointed out that no official report ever had been made to the legislature of the rioting. He asked for "a thorough cleansing" of the adjutant general's department.

To support the allegation that General Black had disregarded the advice of Colonel Hunter, Mr. Devine produced a letter written him by C. R. Edgington, secretary of the Greater, Marion, (Ill.) association, detailing how the colonel had advised the adjutant general of the situation and of the need for troops.

"In my opinion," the letter read, "Colonel Hunter did everything a human could do to avert this terrible calamity."

The blame for the failure to send troops lies with General Black as he was fully in touch with the situation at all times while this affair was in progress."

MORE PAVEMENT PLANNED FOR ILLINOIS

WHAT DOES WOMAN'S INTUITION WHISPER?

It must be woman's intuition that whispers the coquettish tilt of her hat; stands at her elbow when she selects the shade of fabric that best complements her coloring.

But no "sixth sense" need prompt her in idealizing those lovely lines of hers. Good judgment will tell her to be fitted with a Modart Corset.

There are nearly a million women who wear just one kind of corset—the Modart—and not one will give you the usual woman's answer, "because," if questioned about the matter of corsetry.

They have very definite reasons for wearing the Modart, for it does just what a corset should do

and does nothing it shouldn't. That's the skill of Modart design. The Modart wearer has none of that corseted look or feeling.

Every type of figure will find a Modart—just the proper Modart—to bring out the ideal lines. And it fits splendidly—just smooth and perfect curves that follow the figure and the fashion as well.

Women might choose the Modart because it is so dainty and feminine and perfectly tailored. But they go on wearing the Modart because it gives so much better lines and so much more comfort than they ever believed a corset could. That is because there is no other corset like the Modart.

Your travels may take you from New York to Palm Beach, from Bay Harbor to the Golden Gate. Whenever you go among the gay throngs in the promenade, women more radiant in limousine, or colorful figures about the

golfing green, you are sure to find Modart Corsets worn. Furnishing the background of quiet good taste in the character of delicate frocks or gorgeous gowns, there always is Modart—the choice of fastidious women

SUIT AGAINST RUTH NOT FILED YESTERDAY

NEW YORK, March 14.—Miss Delores Dixon's \$50,000 suit against Babe Ruth, Yankee home run slugger, based on alleged attacks made during automobile trips on Long Island, remained unfilled today.

George Feinberg, the girl's attorney, said the complaint probably would be filed tomorrow. He denied Ruth's charge that the action was a blackmail plot. Papers in the county clerk's office at Brooklyn show that an order was signed appointing Barbara V. Escoc guardian ad litem for the girl to permit the bringing of an action for damages against "Herman C. Ruth." Babe's name is George Herman Ruth.

Mr. Feinberg said, however, that Babe was the defendant. He declared he would disprove Ruth's claim that he did not know the girl.

DAVIS CUP DRAWINGS TO BE HELD FRIDAY

NEW YORK, March 14.—Spain, which reached the final round of international tennis play last year against Australia, today filed its 1923 Davis cup challenge with the United States Lawn tennis association. This eleventh hour entry brought to seventeen the total number of challenging nations three more than the previous high record made last year. Entries close tomorrow at noon and the draw for play in the American and European zone will take place Friday.

Thirteen nations including the latest entry, will participate in the European zone preliminary contests. They are: Belgium, Czechoslovakia, Denmark, British Isles, Ireland, France, Spain, Rumania, India, Italy, Switzerland, Holland and Argentina. The four nations to be drawn in the American zone are Australia, Canada, Hawaii and Japan. The Philippine is the only 1922 competitor which has not filed a challenge for this year's contest.

BROWNS WIN FROM MOBILE

MOBILE, ALA., March 14.—The St. Louis American League Club defeated the Mobile champion Southern association team in an exhibition game here this afternoon 7 to 6. Ken Williams, home run king of the American League registered his second home run of the exhibition season. There was much joy in the training camp of the Browns here today over the announcement that George Sisler their first sacker, and regarded as the best all-around player in the American League would join the club here early next week.

Business Manager Quinn of the Browns had announced at a meeting of the regulars of that team last night that Sisler had been given permission to remain at home if he so desired on account of the player suffering from the after effects of a case of influenza that struck him last January.

Quinn also told the team mates of Sisler that the St. Louis club officials had made an offer to "Stuffy" McInnis before he signed up with the Boston Braves, to cover first base. McInnis accepted the offer tentatively but asked for a few days time in which to consult with his wife, the result being that Mrs. McInnis decided that they did not want to leave Boston.

BRADLEY STRONG IN CATCHERS AND PITCHERS

PEORIA, Ill.—Four catchers and three hurlers reported to Coach Robertson for the first workout in the baseball cage this week. The three pitchers that responded to the call are veterans of the Bradley baseball squad and are almost certain to compose the twirling staff for the season. Tyler, southpaw, and Carrell and Rogers, right handers were the early mound candidates. Tyler, mainstay of last year, will probably handle the heavy end of the slab work this season.

Hindle, Buckley, Kieble and Fritz all show marked ability as receivers and the contest for the backstopping job promises to develop a lot of excitement before the first game with Armour Tech here, April 17.

In addition to a strong battery, Coach Robertson expects to mould together a formidable infield and outfield.

Veterans of the inner garden who are back include Schmidt, Daubert and Brewer and several other unusually promising stars have announced themselves as ready to complete for positions.

Outfield caretakers of experience include Captain Allen and Carroll. Dixon, a hard hitting sandlotter, is expected to show up well for the other berth.

SPRING FOOTBALL AT PEORIA

Peoria, Ill.—With basketball worries over Coach Robertson is devoting most of his time to the spring football candidates. Fifteen men appeared for a workout Monday and the practices since have brought out a few other aspirants. Drill is confined only to fundamentals.

HOPPE RETAINS BILLIARD TITLE

NEW YORK, March 14.—Willie Hoppe, world 18.2 ball line billiard champion, retained his title tonight, defeating Jake Schaefer challenger, 1,500 points to 1,341.

Hoppe defeated 500 to 277 Monday night in the first block of the match overcame Schaefer's lead last night, reaching the 1,000 point mark while the challenger was counting to 994. The champion ran his final 500 points in 12 innings.

Resuming from his unfinished run of 99 in the second block tonight Hoppe counted 43 before missing. He took a long lead in the third inning with a run of 186.

Schaefer, a marvelous shot maker made the highest run of the match in his fifth inning, 243 and drew to within 20 counts of Hoppe. The titleholder pulled away with a run of 113 in his sixth inning and was never headed.

ILLINOIS FENCERS WILL BE FAVORITES

CHAMPAIGN, Ill., March 24.—University of Illinois fencers undefeated so far in conference contests will enter the western conference meet at Columbus this week-end as favorites. Coach Wallie Schumway, Dartmouth veteran, entered his two best men, Captain G. V. Nelson and W. L. Bunting.

It was also announced today that the Illinois Tennis players will tour the south meeting the University of the South at Seawane April 2 and 3 for its first matches. Captain M. K. Dubach of Kansas City, will be one of the players.

Other men on the tennis team are Walter Goodwillie, Chicago, J. P. Adams, Edward Ralston, Harold Davis, Don Robinson, R. F. Jasinski, George Melin, E. F. Rosek, W. L. Liggett and S. W. Flanders.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week to see the effect, 15c and 30c.

DR. BELL'S Pine-Tar Honey

Banishes Coughs and Colds

The slightest cold may develop into grippe or influenza. Be protected at the first sneeze—begin taking Dr. Bell's. This good old time-pine-tar honey syrup quickly stops the tightest coughs, and cures croup, hoarseness, colds, phlegm, laryngitis—superior for children. Ask all druggists.

Refuse substitutes "Pine-Tar Honey" insist on DR. BELL'S.

THE semi-flat tread of the new Goodyear Cord Tire with the beveled All-Weather Tread means smoother running. Its new improved rubber compound means longer mileage. Its heavier sidewall resists rut and curb wear. The reinforced blocks of its beveled tread mean a protected carcass. Its low price and our service mean economy.

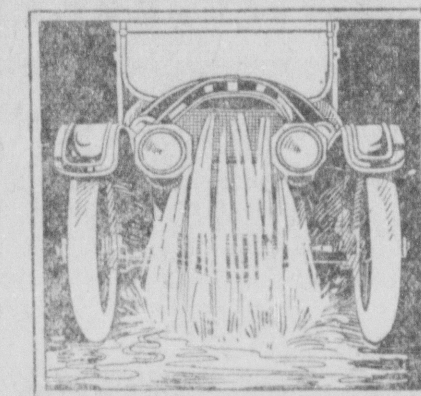

As Goodyear Service Station Dealers we sell and recommend Goodyear Tires and back them up with standard Goodyear Service

Telephone Talks

Answering a telephone call by saying "Hello" is a custom which is rapidly falling into disuse. It means nothing to the person at the other end of the line and causes needless delay.

By giving your name and the name of your firm, you identify yourself at once to the person calling, and the conversation proceeds without loss of time.

I. W. C. GLEE CLUB ANNUAL CONCERT

The annual concert of the I. W. C. Glee club promises to be of especial interest this year because of the exceptional beauty of several of the numbers. The opening group of songs has been chosen for their beauty of rhythm and tone coloring, and they serve as a fitting introduction to a program which combines an high order of musicianship with a heart appeal of unusual quality.

Mention has already been made of Glick's "At the Cloister Gate" and its solemnity and inspiration. Close is something to be heard with a deep realization that music at its best can certainly uplift and dignify all human experience.

In contrast to this the closing number, "The Gypsies, by Brahms-Shelley, gives one fortunate enough to hear it, the desire to be up and away from ordinary duties—to seek the open road and follow where it leads. The fitting melody, the gaily and pure abandon evident throughout makes this part of the program a wholly fitting conclusion.

As for the third number, "Cameos of Love," a fantasy there seems to be a little secrecy. The students are curious to know what may be planned for this but as yet no one has been told. Whatever it may be, it is sure to have the charm and beauty which its name suggests.

Madame Cleard is devoting much time to the directing of the club and it is bringing such interest and enthusiasm to her work as to assure more than an ordinary amount of success to this concert.

Don't forget I. W. C. endorsement fund benefit at Rialto theatre Wednesday and Thursday, March 14 and 15.

SEARCY GIVES VIEWS ON IMPROVED ROADS

State Senator From This District Says: Population Along Roads Must Have Consideration—Reserves Opinion On New Bond Issue.

Senator Earl B. Searcy in a recent address here outlines his views on improved roads. Special references were made to the Morgan County guests; to the proposed bond issue and to the highway.

"There is no right-minded citizen of Illinois who doesn't want to see this state with all-year passable roads as early as the achievement is possible. The only deterrent factor all along the line is the cost of such improvements, and the ability of tax-payers to foot the bill.

"Much is being said at this time about a proposed \$100,000,000 bond issue, designed to make possible the building of roads when funds now available for that purpose are exhausted. If it can be shown that we shall absolutely need such an amount, I will be glad to lend my support to the plan. If not, I say, let us proceed with a smaller amount of money.

"We must remember this. Even if it is planned to foot the entire bond issue bill with fees collected from automobile license moneys paid into the Secretary of State's office, such a bond issue will be a first mortgage on those fees, and they will not be available for any other purpose than the liquidation of these bonds when they come due, and the payment of interest of them until they do come due.

"We would pay, in interest alone, on a \$100,000,000 issue, running twenty-five years, at least \$50,000,000—money enough to build almost 2,000 miles of concrete road. That fact is enough to make us stop and think this thing over.

"As I say, I believe firmly in letting this road program go ahead. It is like any other enterprise, however. One of these days, we shall have to pay the fiddler. Not only that, but these roads, once laid down, must be maintained. Maintenance costs, I am told, after fifteen years, practically equal the original amount put into the road. In other words, if that is true, a mile of road laid now, at a cost of, say, \$25,000, will represent an outlay by the state, fifteen or twenty years from now, of practically double that amount.

"It is misleading to claim that direct taxation does not enter into this proposed big program. If anything should happen to license fees, or if for some reason, maintenance should cost more than we now anticipate, the cost of the whole undertaking will have our direct taxes to fall back upon. Also, if we plan to build nothing but concrete, we shall have to make taxable provision for any oiling that may be done. In the final analysis, taxes will be at the bottom of the whole business, figure it any way you will.

"I am aware of the myriad of promises and bunk propositions that were thrust broadcast throughout Illinois during last year's campaign, with promised hard roads the basis of all the talk. We will get hard roads as fast as is humanly possible to build them. I don't care who's governor, or who the members of the Illinois Legislature may be. Hard roads are like paved streets. They are bound to come, as fast as property owners can afford them.

"So far as I am concerned, personally, I feel that a program embracing oil ought to go hand in hand with the concrete construction. Pleasure routes and main roads are all right, and necessary. But, the fellow who lives a mile or a few miles back from the main arteries pay their taxes just as do the fortunate people living along the improved roads. These fellows have got to be taken care of. Roads, properly graded and drained, then abundantly oiled at the right seasons, can be made passable almost the entire year, even in Illinois. Marketing is not a practice peculiar to certain localities. Every farmer must have his marketing facilities. If he can't have concrete, he ought to have oil.

"The proposed new bill has not come to us in the legislature as yet. We do not know what routes it will recommend. It will be up to us, however, when we get the measure, to concentrate upon it, with the solid business features of it claiming first consideration. Then, and not until then, shall we be able to vote intelligently on its provisions.

"Considering population and the number of tax-payers, Morgan county is considerably short of her quota of improved roads. I am for bringing that quota up to where it belongs. At the same time, I am absolutely in favor of taking care of the fellow off the main road, along with the others. Concrete costs us \$25,000 a mile. The best oiled roads can be improved for less than \$1,000 a mile. To my mind, this fact alone stares us in the face and demands consideration."

NOTED LECTURER TO SPEAK HERE TONIGHT

Frank J. W. Raymond Will Be Star of Program at Chamber of Commerce Forum of Commerce—All Business Men and Salesmen of City Invited to be Present.

Frank Jewel Raymond, the noted lecturer on business subjects, will be the speaker this evening at the Chamber of Commerce forum meeting. Mr. Raymond will deliver his lecture on "Business Mastery," and a full attendance of all business men in the city is urged. A special invitation is extended to the clerks and salesmen, as this is a business booster meeting.

Mr. Raymond has been lecturing to business men in a number of larger cities in the northern part of the state. He comes here from Topeka, Kan., where he has been conducting a business institute. He is said to be a speaker equal to Fred High, who made such a pleasing impression here at the Kiwanis banquet.

At 6:15 o'clock this evening, Mr. Raymond will be the guest of the Membership Forum committee and the executive board of the Commercial Division at luncheon at the Peacock Inn. Chairman Cody of the forum entertainment committee has arranged a good opening program for the big meeting at the Chamber of Commerce.

BOYS PLANNING FOR SUMMER CAMPS

Brigadier-General George Van Horn Moseley, commanding the Sixth Corps Area, has issued orders detailing the officers now on duty in the Chicago public high schools for duty at Camp Roosevelt, Chicago's summer school camp for boys near LaPorte, Indiana, for the summer of 1923.

Charles H. Smith, principal of the camp summer schools, has re-elected the same faculty as last year. Major John H. DeArmond, O. R. C., will be in charge of the Junior Camp, and he will have assisting him the same young men who were on duty in the Junior Camp last summer.

"The outlook for this summer's camp seems brighter than any other," said Major DeArmond, the commanding officer, today. "We are as busy as can be registering boys for the camp. The majority of these early registrants are 'repeaters' who have attended from one to four summers. This speaks in no uncertain terms of the treatment which is accorded boys, and the kind of time they have. I am always happy to greet the old boys when camp opens."

The summer schools division will be of seven weeks' duration, beginning on July 2 and ending on August 18. The R. O. T. C. and Junior Camp divisions will open one week later, on July 9, and close on August 18. They are divided into two periods of three weeks each, and a boy may register for either one or both of these divisions. The summer school session is not sub-divided.

BIBLE THE LIVING WORD REV. MARBACH SAYS

Pastor Of State Street Church Preaches Strong Sermon at Revival—Prayer Meeting This Evening at 7 O'clock.

An audience that filled the Grace church and overflowed to capacity assembled to hear a clear, spiritual and forceful discussion of the subject, the Bible, the Living Word, by the Rev. W. H. Marbach, pastor of State Street Presbyterian church.

His text was Heb. 4:12. For the Word of God is living, and active, and sharper than any two-edged sword, piercing even to the dividing of soul and spirit and quick to discern the thoughts and intents of the heart.

The speaker introduced his theme by a very interesting history of the production of the Bible. Six hundred years ago a pair of oxen was the price in England of two or three pages of the Bible, and \$200 was a small price to pay for a complete copy. In 1536 Tyndale was strangled at the stake, for his part in giving the Bible to the English people. The next year, the king of England granted the request of the people to print the Bible. In 1538, the king required every church to own a copy of the Book, which, in view of the excitement of the people, was chained to the desk.

In 1777, Voltaire prophesied that the Bible would be extinct in one hundred years. In his day it was translated into thirty-eight languages. Today the British and Foreign society prints it in 504 languages. The American Bible society alone has circulated ninety million copies since Voltaire died.

In precept and proverb, in epic and epistle, in song and sermon, in poetry and prose, in allegory and history, the Bible throbs with life.

There is much truth that is not living truth. The multiplication of tables and geometrical theorems are necessary forms of truth, but they cannot reform the drunkard or make a man a better citizen.

The Bible is to a man under temptation like the soldiers gas mask or a light in a dark tunnel. The Bible produces life. John Morely said: "The Sermon on the Mount is packed with dynamite." Horace Greeley said: "It is impossible, mentally or socially to enslave a Bible-reading people. The principles of the Bible are the ground work of human freedom."

Where this Bible is neglected, public manners and morals slide slimeward, where it is read and studied, men mount from the mire to the rock. "The more closely we observe its divine precepts," the better citizens we will become, and the higher will be our destiny as a nation."

The speaker closed by reading a unique diary that of a Bible which follows:

The Diary of a Bible. January 15—Been resting quietly for a week. The first few nights after the first of the year my owner read me regularly, but he has forgotten me, I guess.

February 2—Clean-up. I was dusted, with other things, and put back in my place.

February 2—Owner used me for a short time after dinner, looked up a few references. Went to Sunday school.

March 7—Clean-up. Dusting and in my old place again. Have been drawn in the lower hall since my trip to Sunday school.

April—Busy day. Owner led C. E. meeting and had to look up references. He had an awful time finding me, although I was right there in my place all the time.

May 5—In grandma's lap. She is here on a visit. She let a tear drop on Colossians 2:5.

May 6—In grandma's lap again this afternoon. She spent most of her time on 1 Corinthians 13, and the last four verses of the 15th chapter.

May 7, 8 and 9—In grandma's lap every afternoon now. It's a comfortable spot. Sometimes she reads me and sometimes she talks to me.

May 10—Grandma gone. Back in the old place again. She kissed me goodbye.

June 4—Had a couple of four-leaf clovers stuck in me today.

July 1—Packed in a trunk with clothes and other things. Off on a vacation I guess.

July 7—Still in the old trunk. July 10—Still in the trunk, too nearly everything else has been taken out.

July 15—Home again and in my old place. Quite a journey, tho I do not see why I went.

August 1—Rather stuffy and hot. Have two magazines, a novel and an old hat on top of me. Wish they would take them off.

September 10—Clean-up. Dusting and set right again.

September 12—Used by Mary a few moments today. She was writing a letter to a friend whose brother had died and wanted an appropriate verse.

If your Bible could talk, what story would it tell?

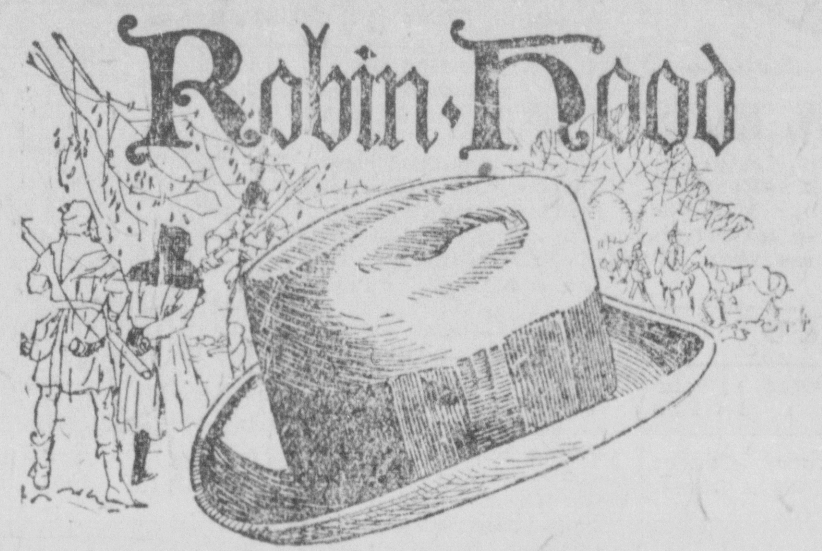

The Rev. A. P. Howells read the scripture and the Rev. T. H. Tull offered prayer. A fine trombone solo was played by Mr. Russell Harvey.

The Rev. G. E. Stickney, who presided, announced a prayer meeting at 7:00 P. M. this evening in Grace Church parlors. A committee of laymen, consisting of C. H. Story, T. V. Archer and J. W. Breckon will arrange for a prayer meeting at this hour each evening of the revival.

The ushers last night were B. F. Shafer, Paul Shafer, C. B. Macsey, H. B. Kamm and W. J. Brady, all from Westminster church.

NOTICE TO FILE BILLS. All claims which are to come before the county board at the coming session should be filed not later than noon Saturday, March 17.
